WEBINAR

3 WAYS TO BOOST YOUR BEAD MILL PRODUCTIVITY WITH THE NEW FEATURES OF IRIS V3

The most anticipated launch of the year from NETZSCH G&D!

You're invited to be among the first to discover the groundbreaking release of our global automation system, IRIS V3, designed for our bead mills.

In this exclusive session, you'll learn 3 powerful ways to enhance your grinding productivity with the latest features of IRIS V3. Our expert facilitators, Eduardo Flohr and Alberto Reuters will guide you through a can't-miss session packed with innovations for a variety of industries, including chemicals, minerals, energy solutions, and food.

What you'll discover:

- How technology drives efficiency
- Automation systems as the foundation for AI and strategic decision-making
- The new IRIS V3 features designed to boost your milling efficiency
- What customers are already saying about NETZSCH G&D latest innovation

Whether you're an industry professional looking to optimize productivity, preparing your equipment for the AI era, a student, an enthusiast, or just starting out in automation, this webinar is for you!
